## **Genetic Disorders in Arabs**

*Ghazi Omar Tadmouri*

Historical Primer  
Genetic Disorders in World Populations  
Arab Populations: A Definition  
Major Prehistoric Events  
The Early Farmers  
Major Events in Ancient and Medieval History  
Landmarks of Modern History  
Arab Diaspora  
Demographic and Medico-Economic Characteristics of Arab Populations  
Health Care in the Arab World  
Outlook of Genetic Research in the Region  
Consanguinity in Arab People  
The CTGA Database  
Genetic Disorders in Arab Populations  
The Spectrum of Disease and Gene Diversity in Arab Populations  
The Economic Impact of Genetic Disorders  
Preventive Aspects of Genetic Disorders in Arabs  
Genetic Disorders Prevention Programs in Arab States  
Arab Family Perception of Genetic Disorders  
Conclusive Remarks

10

## **Consanguineous Marriages and their Effect on Common Diseases in the Qatari Population**

*Abdulbari Bener*

Summary  
Background  
Prevalence of Consanguineous Marriages in Qatar  
Effects of Consanguineous Marriages on Specific Illnesses in Qatar  
Impact of Consanguinity on Cancer in a Highly Endogamous Population  
Autosomal Recessive Disorders and Consanguineous Marriages  
Limitations and Suggestions for Further Research and Action  
Conclusion

30

**3**

## **Genetic Disorders in Qatar: A CTGA Perspective**

*Pratibha Nair, Tasneem Obeid, Ghazi Omar Tadmouri*

Introduction  
Medical Services in Qatar  
Genetic Services in Qatar  
Biomedical Research in Qatar  
Genetic Disorders in the Arab Population of Qatar  
Disease and Gene Diversity in Qatar and Neighboring Countries  
Concluding Remarks

40

## 4

### **Genetic Disorders in Arab Populations: Qatar**

*Tawfeg Ben-Omran, Atqah Abdul Wahab*

- Introduction
- Historical Background
- Current Genetic Facilities in Qatar
- Consanguineous Marriages and their Implications in Qatar
- Reported Genetic Disorders in Qatar
- Monogenic Disorders
- Inborn Errors of Metabolism (IEM)
- Endocrine Disorders
- Hemoglobinopathies
- Miscellaneous Disorders/Syndromes

60

## 5

### **Genetic Disorders in Qatar**

*Jiangxuan Shan, Rebecca Mathew, Khalad Al-Ali, Lotfi Chouchane*

- Introduction
- The Geography and Ethnography of Qatar
- Genetic Services and Neonatal Screening Centers in Qatar
- Consanguinity
- Genetic and Congenital Disorders
- Red Cell Genetic Disorders
- Bleeding Disorders
- Chromosomal Disorders
- X-Linked Disorders
- Genetic Endocrine Disorders
- Metabolic and Nutritional Diseases
- Connective Tissue Disorders
- Dermatological Disorders
- Eye Disorders
- Cancer
- Conclusion

66

## 6

### **Initial Results of a Pilot Arab Human Variome Project**

*Tasneem Obeid, Ghazi Omar Tadmouri*

- Introduction
- Country-Level Gene Variation: The State of Qatar
- Disease-Level Gene Variation: Beta-Thalassemia
- The Shallow Infonome and the Lost Opportunities
- The Deep Infonome and the Lessons to be Learned

74
